The Monastery, Gorton Lane, Manchester, M12 5WF

In the initial message that Helen Wilson of Gift of Change, received from the angels she was told that the day was to be a collaborative event with the Monastery and Gift of Change and had to be held in the amazing setting of The Monastery. The Monastery is a truly inspiring venue, being filled with a beautiful sense of peace and well-being. We can't think of a more perfect venue for a truly enjoyable and spiritual experience.

Speakers for the day are:

Aidan Storey- Angelic Ireland

Aidan adopts a powerful but compassionate approach in his work and using his Psychic gifts, his expertise as an Angel Therapist and a Spiritual Healer, helps people to understand their own spiritual identity. Through his unique synergy with the Angels and Spirit Guides, he uncovers the real problems that prevent people taking their journey to enlightenment and fulfillment.

Elaine Downs – Down 2 Earth Angels

Elaine has worked with the angelic realms for several years. Elaine acts as a channel between the two worlds and provides great upliftment and humour with the messages that she brings. Elaine is also an animal communicator and healer with many years of experience. We feel sure that her connection to the angelic realms will add a wonderful dimension to a very special day.

Parveen Smith

Parveen is an International Angelic Reiki Master Teacher. She runs regular workshops to enlighten others. Her book Seeing is Believing is the only book that gives insight to Angelic Reiki. Recently she was interviewed on TV and Radio. Parveen can take you on a Journey with the Archangels. Allow yourself to be touched by the pure vibration of Angels.

"I thought who would ever believe me when I was first touched by the Angels. Here I am now used as a channel to bring peace, happiness and a connection to pure beings of light. Allow yourself to be touched by the Archangels and never feel alone. Come on a journey with one of the Archangels."

Helen Worthington

Helen started painting Angel artwork about 4 years ago, with no previous experience of painting, and very little knowledge of the subject.

"Without doubt, I have been guided, persuaded and assisted by these beings to produce pieces of work which are accessible to most people

As I have continued with this work, the world of Angelic communication has opened up further and further, until I am now running workshops to teach others how best to work with our available to us all. I am certain that these beings

of light will continue to approach, work with us, and guide and inspire us in many different ways, and my goal is the promotion of this 'network' and the guidance of any who wish to utilise the great gifts we are being offered".

Alison Levesley

Alison Levesley, The Soul Coach and Spiritual Director at the Monastery, is a gifted Psychic Healer and Intuitive Personal Development Coach. Working from a range of techniques Alison is able to work in constant communication with the Angels bringing their healing energies to the aid and enlightenment of others.

Tony Hurley

Tony Hurley has been involved in the restoration of Gorton Monastery for the past twelve years. During that time he has discovered the fascinating hidden secrets of the Monastery and in his role as Seanchaidhe (Gaelic for Storyteller) he tells the story of the Angels and Saints present in this spiritual place.

The Monastery

Ample free parking

Cloister gardens

Easy to find- just off the M60

5 minutes by car from Manchester City Centre
